

# MASTER OF SCIENCE IN INTERNATIONAL ECONOMICS AND ECONOMIC POLICY

FACULTY OF ECONOMICS AND BUSINESS ADMINISTRATION

The Master of Science in International Economics and Economic Policy equips our students with the economic background to excel in today's global economy. You can enroll directly after your bachelor studies; however, students with intermediate work experience are also highly appreciated.

With 5,000 students of business administration, economics, and business education, our faculty is not only one of the most prestigious, but also one of the largest faculties of business and economics in Germany. Graduates enjoy an excellent reputation in the national and international business world, as indicated in numerous rankings (e.g. Wirtschaftswoche, Handelsblatt).

## ABOUT THE PROGRAM

Goethe University's Master of Science in International Economics and Economic Policy (MIEEP) is our answer to the challenges of a globalizing economy for corporations, economic policy, and society. It is designed to endow students with the economic expertise and analytical skills for a successful career in administration, government, national and international associations, and global corporations.

## ABOUT THE FACULTY

- Commitment towards high quality of teaching (AACSB accreditation)
- Wide range of modules taught in English (knowledge of German is not required)
- Practice-oriented teaching by accomplished adjunct faculty from the business world and close cooperation with high-profile companies
- Excellent study conditions on the most beautiful and modern campus in Germany: state-of-the-art lecture halls, teaching rooms, libraries, and computer suites
- Combination of intense supervision and independent academic study

## WHY STUDY MIEEP IN FRANKFURT?

The program offers a combination of up-to-date international micro- and macroeconomics as well as their application to current public policy issues. It combines academic rigor with a focus on topical issues faced by administration and policy makers.

Frankfurt is one of the leading financial and economic centers in Europe with two central banks, major German development agencies GIZ and KfW (incl. KfW Development Bank), as well as numerous institutions, private banks and corporations.

Thus, Frankfurt serves as the perfect stepping-stone for your career with plenty of opportunities for internships and job entry.

## STUDY ABROAD

We encourage you to study one or two semesters abroad. Our International Office provides comprehensive advice during all stages of your studies abroad. You can choose between the following options:

- Study one semester abroad at one of our high quality **partner universities** in Europe and worldwide.
- Choose the **QTEM program**: study at one of our QTEM partner universities and receive a certificate that proves your extraordinary quantitative skills.
- Study abroad as a **free mover** at a university of your choice.

## PROGRAM STRUCTURE

SEM.	MODULES
1	<ul style="list-style-type: none"><li>• Fundamentals of Macroeconomics</li><li>• Fundamentals of Microeconomics</li><li>• Fundamentals of Econometrics</li><li>• Elective module</li><li>• Elective module</li></ul>
2	<ul style="list-style-type: none"><li>• Elective module Public Policy</li><li>• Elective module International Economics</li><li>• Elective module</li><li>• Elective module</li><li>• Supplementary module</li><li>• Supplementary module</li></ul>
3	<ul style="list-style-type: none"><li>• Elective module Public Policy</li><li>• Elective module International Economics</li><li>• Elective module</li><li>• Elective module</li><li>• Seminar</li></ul>
4	<ul style="list-style-type: none"><li>• Thesis seminar</li><li>• Master's thesis</li></ul>

**Fundamental modules** provide the basic tools for advanced courses and thesis work.

**Elective modules** provide advanced specialized knowledge of various areas. Students choose their electives according to their future career plans.

**Supplementary modules** apply academic theories to real-world problems and are typically taught by practitioners.

**Seminars** encourage students to conduct their own research as a preparation for the master's thesis.

The **master's thesis** is a major research project by which students can demonstrate their ability to deal independently with a complex problem.

## ADMISSION

Applicants must hold a bachelor's (or equivalent) degree in economics and business administration. Exceptionally strong candidates with a quantitative background will be considered, even if their field is not directly related to economics or business administration. Moreover, you may apply once you have at least 80% of your undergraduate credits completed.

All applicants must register through our online application system.

Please check our website for details on the application process.

## APPLICATION DEADLINE

May 15
